

Date: 19 June 2023

Extension of Deadline for Submission of Proposals for Smart Security IP Cameras.

The deadline for submission of bids for the CCTV Camera RFP has been extended by one week. The original deadline was June 20, 2023, but the new deadline is now June 27, 2023.

This extension has been granted due to the high level of interest in the RFP from multiple vendors. We have received a number of requests from vendors who need more time to prepare their bids. We understand that this is a significant project, and we want to give all vendors a fair opportunity to participate.

Vendors can conduct physical survey of property to locate strategic spots, recommend type of cameras; covering parking, lifts, terraces, common areas, facilities, club house, entry/exit gates.

For ground survey, please take appointment by email to secretary@welworthcity.in and cc to tenders@welworthcity.in with details of surveyors, date and time of visit.

The RFP document and all supporting materials are available on our website. Please submit your bids by 5:00 PM on June 27, 2023.

Also, vendors are advised to submit proposals in two different sets, Technical [Open] and Commercial [Sealed Cover].

We appreciate your understanding.

Sincerely,

Secretary,

PWCAOA
